AT THE BENNING TRACK

ONLY ORDINARY FIELDS IN THE EVENTS TODAY.

Usual Crowd From Out of Town-Winners in Some Races-Tomorrow's Entries.

BENNING RACE TRACK, November 18. -Although today's attendance is not up to that of yesterday, a large crowd was on hand when Starter Cassidy sent the ponies away for the first race. The weather continued good, although threatening, and the track continued in superb condition. The special train from Baltimore brought over the usual large crowds.

There is no feature in today's program and the conditions of the races have brought together very ordinary fields. Four of the races are under selling conditions, there is a six-furlong dash for two-year-old fillies, and the remaining race is for maidens. While there is a noticeable absence of

class on the six races, the handicapper has done his work well and there should be several close fits at the wire. There was only one scratch bulletined at 1:30. Grande Vitesse, in the first race.

First Race. First race, seven furlongs, Brooklynite (Notter), 4 and 8 to 5, first; Briarthorpe (Crimmins), 5 and 2, second; Panique (Lee),

12 and 6, third. Time, 1:28 4-5. Second Race. Second race-Six furlongs: Sufferance (Redfern), 3 to 5 and out, first; Queen

Rose (T. Burns), 10 and 3, second; Bravery, (Lee), 3 and 3 to 5, third. Time, 1.17. Third Race. Third race-one mile and forty yards Andrew Mack (Romanelli), 3 and 6 to 5, iest; Coppelia (Travers), 21/2 and 4 to 5

CALL ON THE BANKS.

Secretary Shaw Directs Return of 25 Per Cent of Public Deposits.

Secretary Shaw today announced a call upon national banks holding deposits of public funds, and the formal letter of instructions to the banks covering the call will be issued this week, and will direct the return to the treasury of 25 per cent of the deposits held by the banks, 10 per cent on or before January 15, 1905, and 15 per cent on or before March 15, 1905.

This will include all banks except a few active depositaries where the amount of the deposit is relatively small as compared with the amount of business handled for the

The Secretary estimates that this will bring into the treasury in the neighbor-hood of \$25,000,000, which will make a working balance of approximately \$50,-

The call upon the banks is not due to the necessity for immediate funds in the treasury. While the working balance of the department has been gradually growing smaller for several months owing to an ex-cess of expenditures over receipts, there is still a working balance of something like \$23,000,000. It is not expected that the banks will be in haste to turn in their de-

They have until January 15 to make the first payment, and most of them will probably avail themselves of the limit, except where they have opportunity to dispose at a good figure of their bonds now held as se-curity for circulation.

QUESTION REGARDING CONTRACT FOR FILTRATION PLANT.

Stated to Be Impossible to Complete Work as Required by Terms of Agreement.

General Mackenzie, chief of engineers, has submitted to the controller of the treasury an interesting question regarding the work of constructing the filtration plant, located on both sides of 1st street, near the entrance to the Soldiers' Home. Congress appropriated the sum of \$3,768,405 for the establishment of this plant. One of the appropriation acts provided "that all contracts authorized under appropriations for this plant shall provide for the completion of the work on or before December 1, 1904." The War Department acted in accordance with that instruction, and made a contract with a Richmond firm in the words of the law. The contractors failed several months

of a receiver, who undertook to complete the contract. Various causes interfered with the prog-ress of the work, and it is now realized that it will be impossible to complete it by the date fixed by the contract, the 1st proximo. Under the approved project the plant, which is a slow sand filtration plant, is to consist of twenty-four filter beds, necessary collecting drains under the beds meters, regulator houses, piping to clear water reservoir, piping from pumping plant to filter beds, pumping plant, labora-tory, sand washers and necessary build-

ings. The plant is to have a capacity of 75,000,000 gallons per diem when operated at a rate of 3,000,000 per acre per diem. Capt. Wooten, the engineer officer who has been in charge of the work since the death of Col. Miller several weeks ago, has reported to Gen. Mackenzie that about fifteen of the filter beds will be practically finished by the 1st proximo, and could be put in operation then if necessary. In his opinion, however, it is not advisable to begin the operation of the plant until the full number of beds called for by the contract, namely, twenty-four, are ready for service, on the ground that the service under exist-ing conditions would not be satisfactory. It is roughly estimated that the plant cannot be entirely finished before August or September next. The contractors have asked for an extension of time, and the army engineers desire to grant it. Under the terms of the contract, how

ever, payments can be made on the work cond; Charles Elwood (Wonderly), 4 and after the 1st proximo, unless the terms of the contract are modified accordingly. and the controller of the treasury has been asked for an opinion as to whether that action can be taken without specific authority from Congress.

LOCAL FINANCIAL NEWS.

Trading continued to be active on the loeal stock exchange again today, the bulk of it being done in the common stock of the Washington Railway and Electric Company, with the stock of the Capital Trac-

After some slight trading in government bonds the 4 per cent bonds of the Capital Traction Railway Company opened up strong and in active demand, but resulted in no trading

On the regular call the 4 per cent bonds of the Washington Railway and Electric Company were strong and in demand, but few were offered at the bid prices. Two \$1,000 bonds were traded in at 87% and 87%. After call trades were made in these bonds to the extent of \$6,000 at figures from 87%

City and Suburban 5's and Anacostia and Potomac 5's were in demand, and each advanced fractions in the bidding with no counteracting offerings.

The stock of the Capital Traction Railway Company took on a lively gait in the bidding as soon as it was placed on call. Bids were made in rapid succession, in fact the few offerings were taken up so quickly that it was at one time hard to de-termine who were the successful buyers, so many voices were singing out, "take it."
On more than one occasion it became necessary to match coins to determine the buyer of the stock. The stock closed yesterday at 139 bid and 139½ asked. Today the first bid was 139 and this was advanced by fractions until 1414 had been reached. In the meantime trades had been made in over a hundred shares. The closing quotation on this stock was 141% bid with 142 asked.

preferred stock of the Washington Street Railway and Electric Company was active and in demand again today. The books of the company close on Monday, so the quotations of today are "ex-dividend." The closing quotations of yesterday were 75½ bid and 75% asked. This included the dividend. Today's trades were largely made on the ex-dividend basis although a for on the ex-dividend basis, although a few cash trades around 82 were made, but notwithstanding this fact, at the close of the call the quotation stood 80½ bid and 82½ asked. 170 shares were traded in on the exchange today at figures up to 80%.

When the call of the common stock of the aWshington Street Railway Company had been conclude and the after call transactions were taken into consideration every broken on the exchange knew that there had been "something doing," while the rap-id-fire trading had been going on. The trades totaled 3,250 shares in lots of fifty up to 500 shares. At the close of the day's business the stock had made another advance of more than a point, closing at 29% bid, with 30 asked.

National Safe Deposit stock advanced in the bidding to 197% bid with 200 asked. Trades in twenty-five shares of this stock

American Security and Trust was a little off in the asking price of the past several days. Trades were made today in sixty-eight shares at 220.

Union Trust and Storage was strong, and advanced in the bidding without being able to bring any of the stock ine the market.

The activity of yesterday in Traders' Bank stock was not resumed on the exchange today. Two hundred was asked for the stock, but without a higher bid than 185, five points off the high sale of yesterday. The exclusive information in The Star of yesterday that the Traders' will shortly double its canital stock was discussed by double its capital stock was discussed by brokers on the exchange today, and made those having the stock hold on to it a little tighter. It is expected that the bank offi-cials will announce officially next week their

The stock of the new Commercial National Bank was listed on the local exchange for the first time today. The first bid for the stock was 125. The bidding increased rapidly to 130, 135, 140, 141, 150, when a sale of ten shares was made. It re-ceded to 145 in the bidding and so stood at the close. It was first offered at 160, 155, 150, and stood 150 asked for the stock at

SUGAR, AMALGAMATED COPPER AND C. AND O. THE FEATURES.

Usual Rush to Take Profits Caused Irregularity-Reactions Followed -General List Depressed.

NEW YORK, November 18.-Excited rading in Sugar, Amalgamated Copper and Chesapeake and Ohio was the feature of the opening stock market today, but ago and their affairs were put in the hands there were large gains also at other points of the list. The dealings in the three principal active stocks were in blocks of a thousand to six thousand shares.

Sugar fluctuated wildly over a range of point at an extreme advance of 24 Amalgamated Copper's extreme rise was 4. as was that in Chesapeake and Ohio Malting preferred rose 14, New York, Chicago and St. Louis and Chicago and Alton point, and Locomotive, Colorado Fuel, United States Steel preferred, Brooklyn Transit and Smelting a point. There was a jump of 2% in Vulcan Detinning.

Some irregularity followed the opening bulge in prices, under a rush to take profits. Business was in larger volume than at any time during the week, and the variety of stocks dealt in extensive. The conflicting movements of the specialties induced reactions in the railroad list, and Union Pacific. Louisville and Nashville and Southern Pacific sold under yesterday's final prices United States Steel and Tennessee Coal also gave way, the latter a point. Large purchases of St. Paul, Atchison, Missouri Pacific and Southern Railway ensued later, and the general railroad list, outside

of the Pacifics, responded.

Among the noteworthy advances were Sugar and Butterick Publishing, 3½; the Allis-Chalmers stocks, 2½; Atchison preferred, Central Railroad of New Jersey Missouri Pacific, Reading, Kansas Texas preferred, Mexican Central, United States Steel preferred, Republic Steel preferred, Brooklyn Transit and Corn Prod-ucts, 1 to 1½, and a great many other minor stocks to a similar extent.
